

User Story

1. As an unregistered user, I want to register to have all the benefits of being a registered user.
2. As a user of the site, I want to see the product sorted by category, so that it is easier to find the desired product.
3. As a user of the site, I want to see the prices of goods to understand whether it is worth ordering them.
4. As a user of the site, I want to add a product to Favorites to have quick access to the product.
5. As a buyer, I want to leave feedback on the purchase to describe the condition of the received product and the competence of the seller.
6. As a buyer, I want to write to the seller to clarify the details of the order and the product.
7. As a seller, I want to change the price of the product so that it is always relevant.
8. As a seller, I want to remove my product so that only relevant products remain.
9. As a site administrator, I want to delete user accounts to control site abusers.
10. As a customer service manager, I want to write to a customer who left a question on the site to answer it.

Requirements

1. Anyone can register on the site by clicking the appropriate button and filling in the mandatory fields "First Name", "Surname", "Phone", "Password", and "E-mail".
2. The site should have a "Catalog" with categories: Accessories; Food and drinks; Women's clothing and shoes; Toys and dolls; Office; Makeup; Materials for creativity; Men's clothing and footwear; Gifts; Souvenirs; Bags; Home and interior goods; Goods for children; Goods for animals; Goods for weddings; Jewelry; Floristry.
3. The prices of all goods must be visible to all users.
4. The buyer must be able to add the product to "Favorites".
5. The buyer must be able to write feedback to the seller through the feedback form.
6. The buyer must be able to write to the seller in personal messages.
7. The seller must be able to edit the price of his product.
8. The seller must be able to delete his product (any item).
9. The site administrator must be able to delete any user.
10. The customer service manager must receive messages with questions from the feedback form and be able to send a response to the customer.
